## 1934

**CITROËN**  
*Origins*

Discover the models that make up CITROËN's extraordinary history, from 1919 to the present day.

**1919**

The pioneering CITROËN Type A enters mass-production.

**1939**

CITROËN launches the 'TUB', a supremely practical modern design with a sliding side door: its successor is the famous type H, above, launched in 1948.

**1948**

The much-loved 2CV is created as a "safe and economical vehicle, able to carry 4 people on-board and 50 kg of luggage". More than 5 million are made.

During the 90s Le Tone had a major hit, "Joli Dragon", and devoted himself to music for 15 years before progressively moving towards illustrative art. Since 2011 his creations have been exhibited in famous places such as the Pompidou centre. An admirer of artists who know how to make the best use of colour, Le Tone confesses to having a weakness for black and white, which he uses to tell simple stories by using felt pen drawings in notebooks.

## 2014

CITROËN C4 CACTUS is launched, incorporating the innovative AIRBUMP® protection system.

1968

It's a golden age for light and agile vehicles like the Ami 6, Dyane and Mehari, a unique design for all roads and multi-purpose use.

1974

The 70s and 80s see CITROËN technology triumph, with models such as the AX, BX, CX and advanced XM, a prestigious vehicle equipped with Hydractive suspension.

2017

Winners of the manufacturer's Rally Raid World Cup from 1993 to 1997; Rally Raid World Cup Drivers Champion four times in a row; eight manufacturer's Champion titles in WRC plus two in WTCC ... CITROËN continues to demonstrate its exceptional motorsport pedigree, year after year.
